

## **CHIMES – CAPS Interface**

During a nightly batch process, the CAPS system will automatically send a Medicaid referral to CHIMES when a child meets the following “Which Children Qualify” criteria:

- ✓ The client must be under age 21.
- ✓ The client must have a FULLY APPROVED, open, payable “P” service with one of the following types:
  - PFRS1, PFSPC, PFSSI, PFTB1, PFTHR, PGRS2, PGRS3, PGRS4, PGRS5, PHCPL, PMACS, PMARB, PMATM (Florence Crittenton Only), POSFC, POSRB, POSTP, PPCFC, PPIFC, PRRS1, PSRS4, PSRS5, PTAL1, PTGHC, PTGHI, PTGHM
- ✓ The client must be in an open foster care placement or a contiguous non-finalized adoption placement.

Information sent in the original referral is as follows:

- ✓ Client Demographics (declared name, all alias names, SSN, date of birth, gender)
- ✓ Client Placement address (“P” address type on ADDL/ADDD)
- ✓ Client IV-E Information (IV-E status code, start date, actual end date, active/inactive code)
- ✓ Worker Information (worker ID, worker name, worker contact county, county address)
- ✓ Service Information (service code, begin date, end date)

Information sent as changes are made in CAPS is as follows:

- ✓ Client Demographics (resent if gender is changed – CHIMES only accepts male/female)
- ✓ Client Placement Address (resent if placement address is modified on ADDD or a new placement is entered on PLAD)
- ✓ Worker Information (resent if the worker name changes, if the client is transferred to another worker or if the worker’s county address changes)
- ✓ Service Information (resent if a qualifying service is ended or if a new qualifying service is entered and fully approved)
- ✓ Closure Information (the CLO review code and review date will be sent when the client is closed on CAPS on IARL/IARD)

Information CAPS receives from CHIMES is as follows:

- ✓ SSN
- ✓ Interface verification for the SSN (means the SSN has been verified through SSA and can no longer be modified on CAPS)
- ✓ Medicaid Issuance (MIHL – Medicaid Issuance History List)
  - We will continue to receive Medicaid issuance history for a client even though they may no longer meet the “Which Children Qualify” criteria
